Naphthoquinone is a fat-soluble vitamin. Same-sex sexual activity has been legal there since 1887, and in 2010 it became the first country in Latin America and only the 10th in the world to legalize gay marriage.

The completion of the review was communicated in the form of an advisory, to inform the public and health care professionals about the safe use of this product in the appropriate patient population.

"Our goals are to support patient choice."

There is no “cookbook recipe” that works for everyone.
In some cases, severe adverse reactions other than those listed here may also occur.
